|wall socket>

The top sliding piece is about 1/2" wide on popular locks, with the bar facing you, if the door swings outward. With the smallest allen key you can get, stick it in and repetitively push and slide it back towards the knob, but don't let go, because it is spring loaded and will snap back into place again. Now for the larger bar. Take another key and wedge it into the slot where the bar enters the other wall (without the knob on it)! and do the same thing. This will be considerably harder to do than with the small tongue, but if you practiced like you should have, it will open with minimum effort. Now we were inside. We ran through the warehouse through the warehouse/office door (these are rarely locked, but try to prepare for it ahead of time by "cramming the lock" like I did) and into the office. The place was empty, no shelves, just desks, chairs, and boxes. The boxes contained modems, motherboards, bus cards, printers, cables, fone cable, and one contained a Zenith laptop computer! No shit, this is a true story! We took everything we could carry (5 people). We took all the above mentioned, as well as printer toner, fones, fone jacks, documents, desk chairs, insulated boxes and bags (static-free kind), even the little shit things, like outlet plates, light bulbs, ANYTHING!!! We went really crazy, and were out in 2 min 30 sec.(always set a time limit)

We wound up throwing half the shit away, but it felt great just to take anything that was not ours!! I have since then done other "jobs" with much more precision, and effort, as well as better rewards. Here are some tips that should be followed when attempting to steal:

- WEAR GLOVES!!!!!!!!!!!!
- Backpacks for everyone to put the loot in.
- Always cas e the joint for at least a week and keep documented records of who leaves when, what time it closes, timed lights, etc...
- Have at least 4 phriends with you, and ,please, make sure they know what they are doing, no idiots allowed!
- Bring tools :small allen keys, both types of screwdrivers, standard size, and tiny, hacksaw blade, wire cutters and strippers, spraypaint- to leave your handle on the wall, hammer, mace, gun-if available, flashlights (duh), wire-good for re-routing door security, and bolt cutters.
- Designate a person to carry all the tools ONLY-don't have him pickup stuff and mix it with the tools, this will only slow you down later if you need to look fir a tool quickly.
- Designate a person to STAY PUT by the door and keep watch.
- Designate a timer, one who has a lighted stopwatch.
- Make runs NO LONGER THAT 3 MIN. EVEN THIS TIME IS EXTREMELY HIGH-TRY TO KEEP AS LOW AS POSSIBLE.
- Getaway vehicle (preferably NOT a van or pickup truck, these will be very suspicious to the pigs..er.I mean cops. And don't speed, or anything, this just attracts attention. Cover license plates till just before you get your asses going, so no one can report the plates to the pigs..oops!, damn, did it again, cops. Make sure you remove covering before leaving.
- Always keep flashlights pointed DOWN unless necessary, crawl under windows, no shouting, even if you find some phucking cool shit, on second thought, maybe painting your handle is a little stupid, so forget that, wear dark clothes OVER regular, non-suspicious clothes (get changed first thing in the car)
- Never brag about your findings in public, only on modem, or on BBS, and never give names of places, phriends, and exact names of things taken, (just say you 'borrowed' a 486DX 33 motherboard, don't say is a Intel 486DX 33 MHz for an IBM PS/1 model 50, serial #XXXXXXXXXXXX. that is just plain dumb)
- Have phun!! and never steal from your neighborhood.
- If you break into houses, never move stuff around; the longer it takes the yuppie family to realize that you were there, the better.
- WEAR GLOVES!!!!!!!!!!!!
- To get in windows: shoot window with BB gun, and place clear, sticky hard-cover book covering on the window over the hole, hopefully the impact of the shot was enough to crack the glass, and LEAN OR PUSH on the covered glass, do not hit or kick, and you will see that the majority of the glass will stick to the covering, and will make considerably less noise.
- Enter through basement windows preferably under a deck or steps.
- MAKE SURE THE PEOPLE WILL BE GONE FOR THE NIGHT AND THE NEIGHBORS ARE ASLEEP (GO FOR AROUND 2:30 AM)
