CMR

Previously known as Intermail, the Commercial Mail Relay (CMR) Service is a mail relay service between the Internet and three commercial electronic mail systems: US Sprint/Telenet, MCI-Mail, and DIALCOM systems (i.e. Compmail, NSFMAIL, and USDA -MAIL).

An important note: The only requirement for using this mail gateway is that the work conducted must be DARPA sponsored research and other approved government business. Basically, this means that unless you've got some government-related business, you're not supposed to be using this gateway. Regardless, it would be very difficult for them to screen everything that goes through their gateway. Before I understood the requirements of this gateway, I was sending to a user of MCI-Mail and was not contacted about any problems with that communication. Unfortunately, I mistyped the MCI-Mail address on one of the letters and that letter ended up getting read by system administrators who then informed me that I was not to be using that system, as well as the fact that they would like to bill me for using it. That was an interesting thought on their part anyway, but do note that using this service does incur charges.

The CMR mailbox address in each system corresponds to the label:

Telemail: [Intermail/USCIS]TELEMAIL/USA
MCI-Mail: Intermail or 107-8239
CompMail: Intermail or CMP0817
NSF-Mail: Intermail or NSF153
USDA -Mail: Intermail or AGS9999

Addressing examples for each e-mail system are as follows:

MCIMAIL:

123-4567 seven digit address
Everett T. BOWENS person's name (must be unique!)

COMPMAIL:

CMP0123 three letters followed by three or four digits
S.Cooper initial, then "." and then last name
134:CMP0123 domain, then ":" and then combination system and
account number

NSFMAIL:

NSF0123 three letters followed by three or four digits
A.Phillips initial, then "." and then last name
157:NSF0123 domain, then ":" and then combination system and
account number

USDAMAIL:

AGS0123 three letters followed by three or four digits
P.Shifter initial, then "." and then last name
157:AGS0123 domain, then ":" and then combination system and
account number

TELEMAIL:
